## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 23, 2007 has been entered. Claims 5-9 remain withdrawn from consideration as being drawn to a non-elected invention.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-5 and 10-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 3-4, the phrase "an order creation notification of an order created in" is not clear.

Claim 1, lines 9-10, the phrase "at least one order notification of an order activity" is not clear.

Clarification is required.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-5 and 10-19, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Bloom, US 6,974,928.

Bloom discloses, e.g. Figs. 1-13, a method for exposing transaction status, e.g. Figs. 8, 9A, comprising a central exchange, e.g. Customer Distribution Center (CDC), a variety of order identifier, an ePD retailer identifier, a customer identifier, a CDC identifier, an order date/time, a retailer order number, a delivery type and a status, e.g. 1202. Bloom does not specifically disclose a supply chain or an access platform. However, retailers/customers/shippers associated with a supply chain and access platform have been common knowledge in the art database supply chain art. To have provided such for Bloom would have been obvious to one of ordinary skill in the art.

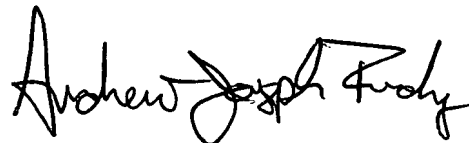

It is noted Applicant's claim language is replete with intended use claim language, e.g. claim 1, lines 1, 32, "for exposing," "for status information" that is given little, if any, patentable weight.

6. Further references of interest are noted on the attached PTO-892. Each shows Applicant's features recited in Applicant's claim language.
